INTELLIGENT AUTOMATION ENGINEER | QA SPECIALIST | IT-BUSINESS PROCESS OPTIMIZATION

An analytical technology professional with 4 years of diverse experience across the Software Development Life Cycle (SDLC), specializing in Intelligent Automation, Quality Assurance, and Web Development. Adept at bridging IT and Business by translating complex operational bottlenecks into scalable technical solutions. Proven track record of designing, rigorously testing, and deploying high-volume automation workflows and Agentic AI prompt models that drive significant operational efficiency and data accuracy.

TECHNICAL SKILLS

AI & Intelligent Automation	Quality Assurance	Development & Data	Business Analysis
- Power Automate - UiPath - n8n - AI Builder - Prompt Engineering - LLM Integration (Gemini, OpenAI) - Langfuse - Redis	- Hybrid Testing Strategy - Manual & Regression Testing - Robot Framework - Test Case Design - Defect Reporting - JIRA	- Python - JavaScript - CodeIgniter - Laravel - MySQL - API Integration - NestJS - REST API Integration - TypeScript	- Requirement Gathering - Process Mapping - SDLC Management - Agile

PROFESSIONAL EXPERIENCE

PT. INFOMEDIA NUSANTARA - Contract Intelligent Automation & AI Developer	March 2024 - Present
- End-to-End RPA & Business Optimization: Analyzed operational bottlenecks and built scalable automation workflows for 1,000+ daily transactions using Power Automate and UiPath, saving 100+ man-hours monthly and reducing runtime errors by 25–35%. - Conversational AI & Agentic Workflows: Developed intelligent conversational chatbots using NestJS, TypeScript, Gemini LLM, and Google ADK, utilizing Redis for session management and MySQL for data persistence. - Document AI & Workflow Orchestration: Built automated Document AI pipelines deployed on GCP, integrating Temporal for distributed orchestration and Gemini LLM to enhance unstructured data extraction accuracy and throughput. - AI Quality Control & Observability: Engineered an event-driven QC system to evaluate and score human agent interactions using NestJS, Gemini LLM, RabbitMQ, and Langfuse for observability and tracing.	
Refactory - Apprenticeship Quality Assurance Engineer	May 2023 - Oct 2023
- Successfully designed and implemented a new hybrid QA strategy, manually uncovering 3-5 critical edge-case bugs missed by scripts, while simultaneously developing an automation suite that reduced regression testing time by 30-40%. - Streamlined the defect reporting process for both manual and automated tests, which reduced the average time-to-resolution for bugs by 15%.	
Ariwa Informatika - Contract Project Web Developer	Oct 2022 - Dec 2022

Accomplishments:

- Enhanced application performance and reliability, boosting Google Lighthouse scores, cutting navigation issues by 30%, and ensuring 90% cross-browser reliability.
- Accurately translated 20+ complex Figma designs into pixel-perfect responsive pages, reducing integration bugs by 30% through back-end collaboration.

BPS-Statistics Indonesia Kediri Municipality - Contract Project **Data Enumerator**

Sep 2022 - Nov 2022

Responsibilities:

- Created and documented structured data flows to improve the overarching system architecture and ensure high data quality during the collection process.

Customs and Excise Office (KPPBC) - Internship **Web Developer**

Jun 2020 - Jul 2020

Responsibilities:

- Designed and developed a responsive CodeIgniter web application, collaborating closely with back-end developers for seamless API and server-side logic integration.
- Conducted thorough testing, debugging, and regular maintenance, incorporating user feedback for continuous application improvement and performance.

EDUCATION

University of Brawijaya Bachelor of Computer Science

2017 - 2021

COURSES & CERTIFICATIONS

UiPath Introduction to Automation	March 2024 - May 2024
UiPath Explore automation development with UiPath Studio	March 2024 - May 2024
UiPath UiPath Studio Web Overview	March 2024 - May 2024
UiPath Build your first process with Studio	March 2024 - May 2024
UiPath Variables, Constants and Arguments in Studio	March 2024 - May 2024
Coursera Dasar-dasar Analitik Data: Data, Data di Mana-mana	Oct 2022 - Nov 2022
Coursera Menganalisis Data untuk Menjawab Pertanyaan	Oct 2022 - Nov 2022
Coursera Ajukan Pertanyaan untuk Mengambil Keputusan Berdasarkan Data	Oct 2022 - Nov 2022
